

Substation Design and Construction

Yurika's people are specialists in end to end, high voltage design, installation, maintenance, testing and commissioning.

Our experienced engineering team provides fit for purpose solutions, designed to meet client project budgets and outcomes. We encourage a collaborative approach in working towards the needs and requirements of our clients.

We provide certified solutions to meet relevant standards including RPEQ and NPER. Our team provides full turnkey solutions and comprehensive project and site management.

Yurika understands the importance of meeting critical timeframes and quality performance of high voltage assets. Our team of senior project managers are experienced in the delivery of complex electrical infrastructure projects throughout Australia.

We can demonstrate extensive experience and expertise in design, manufacture, installation, testing and commissioning across a variety of operations, including:

- Primary Plant
- Civil and Structural
- Secondary Systems, Protection & Control
- Communication and Metering

For more information, please contact us at yurika.com.au, hello@yurika.com.au or phone 1300 792 611.

Serving customers across Australia.
Staff in Brisbane, Melbourne, Sydney, Hobart,
Adelaide and across regional Queensland.
